New Area Council Formed; County To Name Member

Harold Landolt, chairman of the Madison county board of supervisors, said today he will make an early appointment of a member to the newly-formed Regional Industrial Council, which is being created to provide a regional approach to business and industrial development in the Metropolitan area.

The new council is being established as the result of meetings in which representatives of business, industry and labor in a joint effort to promote the development of industry in the Metropolitan area. Decision to form the council was reached Monday night in a meeting at East St. Louis. Landolt, accompanied by H. A. Kluge, Madison county superintendent of highways, and Theodore Mikesell, executive director of the Southwestern Illinois Metropolitan Area Plan Commission, represented Madison county at the session.

Also attending Monday night's meeting were Mayor Raymond R. Tucker of St. Louis, Supervisor Lawrence K. Foster of St. Louis County, D. Reid Ross, director of the Business and Development Commission of St. Louis County, James "Bud" Krause, St. Clair county planning and zoning chairman, and Francis "Red" Foley, chairman of the St. Clair county board of supervisors.

The meeting was the second held on the proposal, initiated by Ross last April. The first meeting was held May 13 at the St. Louis county courthouse at Clayton. At that meeting officials took no action toward organization, but after hearing the proposal for setting up a regional council, agreed to take the proposal back to their respective governing bodies.

Krause, who acted as spokesman for the group, said that in the meeting Monday night "we all agreed that this was the best approach—a new spirit of cooperation in promoting business and industrial development in the region as a whole."

Each of the government officials who attended the meeting agreed to appoint a representative. After the appointments are made, an organization meeting will be held. The St. Clair county member will arrange the first meeting in which the groundwork for planning and action will be laid.

Speeding Charged

Walter A. Morton, 19, of 7120 Pontoon road, was arrested Wednesday at Madison and Niering, his car was stopped on a charge of speeding 55 miles an hour in a 30-mile zone. A hearing was set for Tuesday.

Parked Car Damaged

Annette Goff, 3225 Colgate avenue, reported at 7:30 p.m. Monday that a hit-and-run driver backed into the right side of her car while it was parked on the Kroger market lot on Sam Eckel road at Clark avenue.

Three Quad-City youngsters later admitted to the hospital when she consumed an unknown quantity of bleach.

After being struck in the face by a baseball Tuesday evening, Jerry Richmond, 12, son of Mr. and Mrs. Ernest Richmond, 299 Harvard street, Eagle Park Acres, was hospitalized with injuries to his left eye and cheek. The youngster was playing in a Midget League game when the mishap occurred.

William Patterson, 21, son of Mr. and Mrs. James Patterson, 4006 North street, was admitted with mutilations of the index and middle fingers of his right hand caused by an electric fan.

In other emergency cases Tuesday, which were treated and released, Walter Joseph Colligan, 8, son of Mr. and Mrs. Gene Colligan, 31 Moreland drive, Mitchell, received 12 sutures in his arm after falling through a glass door; and Gary Roach, 8, son of Mr. and Mrs. Roy Roach, 710 State street, Madison, was treated for second-degree burns on his forehead and cheek when a companion lit a match to a can of spray-paint causing an explosion.

High winds that accompanied the storm leveled a horse barn at the Fairmount Race Tracks, toppled concrete block firewalls and damaged the grandstand roof. Damage estimates ran as high as \$100,000. Pipes at several local airports were damaged and power lines were knocked down throughout the St. Louis area.

\$10 Millions Invested In Area Credit Unions

Credit Union operation in the Quad-City area has developed into big business in recent years with 15 organizations reported in the area by the Illinois Credit Union League.

What is more, these 15 organizations have total outstanding share balances of \$10,373,373, loan balances aggregating \$5,054,001 and reserves of \$698,870.

Statistics of credit union membership and operation are contained in a 1964 yearbook released by the Illinois Credit Union League. The book revealed that total membership in the state as a whole is nearing the million mark, and that these credit unionists have accumulated savings in excess of a billion dollars. Credit union assets are up \$79,100,000 over last year's figure and now stand at an unprecedented \$571,000,000.

These figures are based on statistics compiled earlier this year in preparation of the yearbook, but serve to indicate the size and scope of credit union operations.

Second largest credit union in the area is at the Granite City Army depot where there are 2066 members with shares totaling \$1,048,596, a loan balance of \$860,200 and reserves of \$40,432.

General Steel Industries credit union also is among the larger ones of the area with 1165 members, \$451,892 in shares, \$437,861 loan balance and \$57,167 reserves.

Both Granite City Teams Defeated In Opening Round of Park Tourney

Both Granite City entries were shut out in the lower bracket in opening round games of the 16th annual Granite City park district invitational fastpitch softball tournament at Wilson Park.

Adams-Gordon-SIAC of Millstadt rallied last night to defeat Granite City's Matthews Chevrolet 7-6. On Tuesday, the first night of the tournament, St. Louis' Blue Circle blanked Miller & Mickey's of Granite City 7-0, and state champion Alt-Wood whitewashed Moziele-Thurney of St. Louis 2-0.

The tournament continues tonight with the winners' bracket quarterfinals. The feature game at 7:30 p.m. is Schumacher-Klueber of St. Louis, defending tourney champion, against Blue Circle, leading team in the tough Bi-State League. The second game matches Adams-Gordon-SIAC and Alt-Wood.

Games also are scheduled Friday, Saturday and Sunday. A detailed schedule appears on Page 6 under "Park Softball." Both Granite City teams play tomorrow night.

Both teams were scored in the fifth on Mary Brykawa's one-run single, a two-run double by Dan Reilly and Dillard's sacrifice fly.

But in the bottom of the sixth, Adams-Gordon-SIAC tagged Carroll Gibson for three runs. They extended the rally in the last of the seventh, scoring four times to win the game.

The first three runs in that frame scored on Howard Ross single, Wally Westbrook's double and an error. Then Ron Jelinik slapped a bases-loaded single to end the game. Matthews Chevrolet now owns a 13-14 record for the season.

"We're just not getting the big play," said Matthews' pilot Bob Stenger. "They're both just too many errors and mistakes. I think we're just pressing too hard."

His team now faces the task of winning six straight games in order to win the championship of the double-elimination tourney.

In Tuesday night's action, Blue Circle's Ed Bonchek blanked Miller & Mickey's in the lone doubleheader on a one-hitter. The Granite City club's lone safety was Mike Suss' single to open the second inning.

Most remarkably, Bonchek took care of all but one of the 21 outs himself. He struck out

18 batters and tossed out Charles "JoJo" Johannmeier twice. The only putout in which he wasn't involved was Rich Briggs' ground-out to third sacker Dick Chitt in the seventh inning.

Bonchek also walked two and hit one batter. The Missouri team touched Leo Six for seven hits, but singles and were aided by seven errors and five walks.

Alt-Wood's Rip Rapp gave up only three hits, struck out 11 and walked one Moziele-Thurney batter. His team won on the defending state champion also made them all count. One run scored in the second on Ralph Glider's double and John Bozovic's single and another came in the third on Glen Winden's hit.

Sportettes Triumph At Wood River 1-0; Return Bout Tonight

The Venice Sportettes crossed the midwestern mark in good form last night, defeating Wood River 1-0 on the losers' diamond to take onto first place in the league with 13 games left to play, will be at home in Lee Park tonight for the first time with the same Wood River team. Alton is in second place.

Betty Glidden pitched the shutout for Venice, striking out the final batter with two on base. The lone run of the game came in the sixth when Diane Cotter reached first on a bunt, advanced to second when Karen Chase walked, and scored on Barbara Glaster's double.

The Sportettes were greeted with good luck in last night's game, when a Wood River batter was out at home trying to stretch a triple into a home run. Two other Wood River batters were thrown out at third. Glidden is expected to handle the pitching assignment again tonight.

Ex-GC Man, Now an Alaskan, Plans to Prospect for Gold

In the days when Alaskan dog sleds were pulled by eight or ten huge Huskies, rather than the more recently adopted mechanized "dog sleds," a former Granite City man, Fred E. Stille, visited a major department store in Alaska and without hesitation began making plans to one day see them in person.

Now a six-year resident of the 49th state, the 39-year-old bachelor, is an Alaskan convert of the most fervent type, declaring praises of his new-found home with the enthusiasm of a Texas. His listeners are enthralled as he recounts his experiences in one of the last frontier regions left in the modern day world—the Alaskan Interior.

"A region where the sleds, either the mechanized Snow Trappers, or the old-fashioned variety, are still the standard mode of transportation for six months of the year. When the baseball game is played at midnight, June 21, in sunlight as brilliant as high noon here... Where you can place a sledge or a glacier ice break-up and secure winnings of \$100,000... Where you can drive 50 miles and see another where... Or, if you know where to look—make yourself a small fortune gold prospecting."

Teacher, Prospector
Where you can place a sledge or a glacier ice break-up and secure winnings of \$100,000... Where you can drive 50 miles and see another where... Or, if you know where to look—make yourself a small fortune gold prospecting."

The modern pioneer is a graduate of Granite City high school, St. Louis University, and the famed K2nd Airborne Paratrooper Battalion with which he spent three years overseas. Stille also attended McKendree College, Lebanon and Southern Illinois University Carbondale.

For the past six years, Stille has taught Eskimo children in various parts of Alaska, most recently in the remote hamlet of Mountain Village, population 25. Inaccessibility to the long arctic winter except by plane or dog sled, Mountain Village lies 80 miles from the mouth of the great Yukon River, which empties its vast waters into the Bering Sea across which, just a few short miles away, is Russia.

Fishing Replaces Trapping
The economic life of the village, Stille refers to as home, is fishing. He is currently teaching in the 49th state, the 39-year-old bachelor has taught Eskimo children in various parts of Alaska, most recently in the remote hamlet of Mountain Village, population 25. Inaccessibility to the long arctic winter except by plane or dog sled, Mountain Village lies 80 miles from the mouth of the great Yukon River, which empties its vast waters into the Bering Sea across which, just a few short miles away, is Russia.

PROSPECTIVE GOLD PROSPECTOR Fred E. Stille, who will change his role of teacher to gold prospector on his return to Alaska, July 10. The 39-year-old bachelor has taught Eskimo children in the far north for the past six years.

ALASKAN HOMESTEAD belonging to former North Carolinians, Mr. and Mrs. Odell Parker, who homesteaded to Nenana in 1910. The original free 160-acre land grant was evaluated at \$40,000 by FHA. Cabbages, shown in front of the cabin, are grown in quantity and stored for winter.

Odell and Mrs. Parker are growing in quantity in the region with the sandy loam producing seven tons per acre. Stille reports, and the soil is excellent for cabbages which are stored in silos for winter use. Dried salmon fish is prepared by the Eskimos in the summer for shipping and to feed their sled dogs during the long winter months.

Employed with the Bureau of Indian Affairs, U.S. Department of the Interior, Stille with other teachers, Mr. and Mrs. James Short, has 90 Eskimo pupils in the frame room school house. His students are second, third, fourth and eighth graders, to whom he imparts the standard elementary subjects taught here. Healthy and happy youngsters, whose principal diet consists of fish, moose, caribou, milk, potatoes and cabbage. Eskimo students are eager to continue their education in high school.

To accomplish this, they must travel 200 miles to Southeastern Alaska, or 1000 miles to Chena, over 80% of the Eskimo youth now receive a secondary education. Stille reports, Despite the often lonely life, he added, there is no shortage of teachers in the 100 schools operated in Alaska under the Bureau of Indian Affairs. Three times a week, summer and winter, a single engine plane arrives at Mountain Village from Bethel, 115 miles distant with mail, supplies and an occasional passenger. Heavy freight is shipped by river boat in the summer.

on Madison avenue south of 19th street.

More About
It was pointed out there was a possibility motor fuel tax funds could be used for such work, but that with the audit of the pending Woodlawn avenue improvement contract, the city's MPT funds would virtually be depleted.

More About
Aldermen Bergfeld, confronted with the city's financial problems, decided to withdraw its motion for reconsideration at a later date. Barash continued that Granite City recently approved a multi-million dollar bond issue for schools "one to be built out at Pontoon Beach for its 14 to 16 year olds. The city should not be too concerned in holding down its budget."

More About
Comptroller \$6300 Bergh explained the city's income to cover the budget would be down considerably because of a tax reduction of nearly nine cents and a sharp cut in the city's valuation.

More About
He added that any increases granted last year would cost the city an additional \$23,992 this year.

More About
Dip Into Reserves
He explained that with a reduction in tax income, the city would have to make up the difference in budgeted expenditures through license fees, fines, the sales tax and parking meter reserves. Doobner noted that virtually all the city's tax rates have been at the limit set by law.

More About
At the request of the Special Pollution committee, the \$15,000 allocated for engineering in the street fund is to be divided into \$8300 to be set up for the eventual hiring of a city engineer and the remaining \$6700 to be used to hire an engineer for the proposed sewage treatment plant.

More About
Chairman Mosier said it was unlikely the rate ordinance setting monthly fees for use of the sewage treatment plant for householders, businesses and industries would be ready for next month. He said the committee members probably will be out-of-town.

Some commercial customers will be required to pay \$25.92 a year, due to the change in community classification, he said. The city has 35,000 customers who now reside in 212 communities and 1,000 in the city of Granite City.

More About
Large users of electricity will receive a rate reduction, Mathias stressed that the rate reduction would be the two prior reductions in the last two years, embrace a general downward trend in the city's electric rates, due to a combination of factors including increasing rates of interest on the bonds, increasing numbers of customers in the growing small communities, and more efficient power management and operation.

More About
This new reduction in electricity rates, Mathias said, is a part of the city's effort to attract industry and commerce to the area.

New Group to Aid Handicapped Youth

Madison county residents interested in forming a central coordinating committee to find ways and means of supplying the needs of children who cannot attend regular school classes will meet to complete organization and elect officers Tuesday at 7:30 p.m. The meeting will be held in the library of St. Elizabeth Hospital, 20th street and Madison avenue. The group also will hear a report from Dr. Seymour Z. Mann, director of public administration and metropolitan affairs of Northwestern Illinois University, and a presentation by Mrs. Margaret Shay, chairman of the department of nursing of SWU. A question and answer period will be held. The organization is being set up to work for a program that will meet the requirements of Madison county children who cannot, because of some specific problem, attend regular school classes, and to coordinate into one central body the needs for all problem areas. The group plans to organize all parents of children of a specific problem in one group. It is planned to keep the program on a family level with clinics and school classes to support the home program. Therapists, trained technicians and teachers will work with children and train parents to continue the work at home. A recruiting program also is planned to attract dedicated persons to be trained either as professional or volunteer workers. Problem areas to be covered will include cerebral palsy, muscular dystrophy, cystic fibrosis, polio, heart diseases, emotional disturbances, speech defects, epilepsy, crippled, multiple sclerosis, mentally retarded, blind or deaf.

Zurkühlen Trial Under Way, Peterson Freed

A charge of receiving and possessing stolen government property against Quentin D. Peterson, 31, of the 2000 block of 20th street, was dismissed at 6 p.m. Wednesday in federal district court at Alton after the prosecution completed its presentation. Judge Ormer Pook ruled favorably on a motion for dismissal submitted by William Schooley, Granite City defense attorney, on grounds of insufficient evidence. The federal district court jury continued to hear evidence today on the same charge against Fred Zurkühlen, 45, of the 1300 block of Madison avenue, Madison. Zurkühlen and Peterson were arrested in 1963 when federal agents recovered four electric clocks which they said were missing from the Granite City Army Depot. Zurkühlen also was indicted last September for alleged perjury following a hearing on a motion last August to suppress evidence in the case.

JULY 2, 1914
The Fourth of July, 1914, went down in history as the most successful exemplification of the safe and sane theory of any celebration ever held in the Tri-City. The day was so quiet that aside from the occasional pop of a penny cracker, and once in a while a well-meaning but unsuccessful attempt to light a fire, there was nothing to qualify it as compared with the former unsafe and insane celebrations of the national holiday.

The Granite City bands' portion of the safe and sane celebration was carried out without a hitch. That the day was an unqualified success is the general opinion of Tri-City residents, and hundreds of visitors to Granite City join in the opinion. The boys and girls had the time of their lives in the morning, enjoying the joy rides afforded by the Commercial Club, which boys worked in conjunction with the band. Fully 63 machines were at the disposal of the youngsters, and every lad and lassie was given an American flag.

At Homans of Granite City, it being urged by his friends to become the democratic candidate for clerk of the probate court, and while he has made no official announcement, Homans is seriously considering making the race.

The Veterans of Foreign Wars program tomorrow, at Wilson Park, concluding the annual picnic. Local swimmers will compete against picked swimmers from various Tri-City pools between 2 and 2:30 o'clock. At 2:30 p.m. there will be a doubles tennis match and during the afternoon music will be furnished by Jerry Carmack's band and a WPA band from East St. Louis.

Sofball games will be played at 4 o'clock and the Community high school band will play during the evening. Fire works display at 9 p.m. will conclude the festivities.

Approximately 450 residents of Lincoln Place attended an outdoor program given by the Granite City Park Board last Friday night to dedicate the Community House building, which was recently donated to the Park District by the General Electric Company. The ceremony was presided over by Judge Wesley Lauder, John Krehman, and other city and park commissioners. William Milton Wooten, Walter Arbogast, Griff Hodge, Arthur Clark and Tom Paulsen, John Krehman, a grocer in Lincoln Place, had led the movement to have the park board to accept the building.

Norman Wendell, leading Granite City tennis player, yesterday afternoon won the first prize in singles championship on the Shaw Park courts in Clayton, Mo., and the day before paired with Charles L. Smith, another Granite Cityman, to win the district junior doubles crown. Wendell is the son of Mr. and Mrs. Harry Wendell of Twenty-seventh street and Delmar avenue.

A triple installation of three new officers of the Tri-City Hebrew congregation, the A.Z.A., B.N.A. Beth, and B.N.A. Beth Auxiliary, was held last week. Charles L. Smith was elected president of the congregation. The officers were: Charles L. Smith, president; Harry Wendell, secretary; and Dan McGee, treasurer.

Calorie Count Shows Sitting Can Be Exhausting
Sitting and thinking may be exhausting, but it can't match gardening or swimming or dancing or even ironing for burning up unwanted calories.

Frank Konishi, associate professor of food and nutrition at Southern Illinois University, Carbondale, has prepared a chart of "energy cost" of various activities, showing the number of calories burned per minute. While lying at ease, a person burns 4.0 calories a minute while sitting, or 6.0 while standing, or 8.0 while walking, or 10.0 while running, or 12.0 while swimming, or 14.0 while dancing, or 16.0 while playing tennis, or 18.0 while playing basketball, or 20.0 while playing football, or 22.0 while playing baseball, or 24.0 while playing soccer, or 26.0 while playing volleyball, or 28.0 while Youths, 18, Called By Draft Board for Exams

Twenty-five Quad-City youths who are out of school and not who have reached 18 have been ordered for other reasons indicated by the Madison County draft board. The board announced by Selective Service board to re-examine the youths earlier this year. The President directed the nation under a new ruling Secretary of Defense and the board handed down by the Illinois State director of Selective Service to re-examine the youths. The Madison county board of 18-year-olds after a presidential statement determined that large numbers of young men being inducted into the military service were interested in obtaining educational, vocational training or health service which would be of benefit to them. John H. Hammack, director of the Illinois Selective Service, pointed out in the new order sent to draft boards that examination of 18-year-olds does not mean

Assigned to Destroyer
Seaman George L. Duke, son of Mrs. Lucille Duke, 2215 Ohio avenue, was recently assigned to the crew of the destroyer William C. Law which is scheduled to depart for a midshipman cruise in the Mediterranean. that they face induction in the immediate future. There will be no change in the present practice of calling older registrants for actual induction into the Armed Forces before the younger ones are called. In announcement of the program it was pointed out that early examination will enable those who are qualified for military service to plan intelligently their future careers in this respect. It will enable those drafted unqualified to get to work promptly on the education, training or health service which can be of benefit to them. At present the Illinois average age of involuntary induction is 21 to 22.

Too Many Close Calls at Park Swimming Pool — Parents' Help Asked

Parents of non-swimming youngsters who use the Wilson Park pool were urged today to aid the district in stressing the importance of water safety to their children.

Harold Brown, director of parks and recreation for the Granite City park district, and Walt Whitaker, swimming pool manager, made the appeal.

"We're putting in too many youngsters," said Brown, "and there have been too many close calls." He was referring to the 25 persons Whitaker says his life guards have rescued from the water since the pool opened this season.

Brown said most of the "pull-ins" have been children who cannot swim but stray from the shallow end of the pool and into water over their heads.

There is a "life-line" at the 4½-foot mark in the pool to warn non-swimmers of deep water. Now the park district is adding a second life-line—colored rope stretched across the pool and held up by small buoys—at the 3½-foot depth as an additional warning device.

"We have five life guards on duty," Brown said, "but when there are five or six hundred people in the pool at the same time it's hard to watch them all."

"So we want to urge all parents to tell children who can't swim to stay in the shallow water behind the life-line. If I not only make our jobs a lot easier but might save their child's life."

The park district provides free swimming instructions for children. This summer's second session begins July 15 and parents may register their children at the park district office.

Hairdressers To View Styling Demonstration

Hair fashions from the "Leap Year Collection" will be demonstrated Monday evening by Mrs. Jean Harris and Earl Parsons, at a meeting of the Elite Hairdressers' Association, Affiliate 33. The event is scheduled for 7:30 p.m. at the Rose Bowl.

The local association, organized less than a year ago, reports a membership of over 75 Tri-Cities beauty salon owners and operators. Its purpose is to provide a central group for the evaluation and dissemination of the latest techniques, current information, and the newest trends in hair fashion.

Parsons, who serves as Affiliate 33 president, is planning to attend the annual convention of the National Association of Hairdressers, starting July 17 in Cleveland, O.

Reports Made To Mitchell Kiwanis

Mitchell Kiwanis Monday night heard reports on club events and projects at their regular weekly meeting at Art and Norma's.

President Henry "Gene" Durrett announced the annual Kiwanis sports day would be held Tuesday, July 21, at the Sunset Hills country club. He also discussed plans for an all-star junior league baseball game between age divisions scheduled for later in the summer.

Francis Richardson stated that progress had been made on the club's fund-raising project. Golden Barton, chairman of the youth program, reported on the boys' baseball league, co-sponsored by the club. Eight members attended the meeting.

Phillip Manning Is Voluntary Inductee

The lone Quad-Citizen to report for armed forces induction under Madison county's June quota was Phillip Manning of Granite City. Madison county's June quota called for induction of only one draftee. Manning was a volunteer. Manning reported Tuesday to the county selective service office at Edwardsville.

The July quota has been doubled with two men scheduled to be called. However, 25 youths, 18 years of age, are scheduled for examinations under a new Selective Service ruling to examine all 18-year-olds.

"IF YOU CAN'T SWIM, stay in shallow water!" warns Walt Whitaker, Wilson Park swimming pool manager. Telling his advice is young Dennis Cruise, 2853 Washington

avenue. New life-line, like one crossing pool in background, will be installed in this area as additional warning to non-swimmers.

Roofers Breaks Arm As Ladder Falls Monday

Bill Cathy, St. Louis, suffered a broken arm at about 6:30 p.m. Monday when a ladder from which he was working was shoved away from a roof at the house of Virgil Harris, 2821 Edwards street.

He had placed some tarpaulin

on the roof when rain threatened and was throwing bundles of shingles on top to hold it down when the shingles slipped back against the ladder.
